REASONS FOR ALLOWANCE

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 11, the closest cited prior art of record are: Oh et al (US 2006/0133548), and Lehtinen et al. (US 2004/0207422). Oh teaches a method for calibrating I/Q imbalance in a direct conversion transmitter-receiver including generating a complex sinusoidal signal, sending the sinusoidal signal to the receiver to estimate the I/Q imbalance. Lehtinen teaches a method for measuring transmitter I/Q amplitude and phase imbalance in connection with power level during power alignment. However, Oh and Lehtinen, alone or in combination, fail to teach the relationships between parameters as recited in claims 1 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
